BACKREST ADJUSTMENT

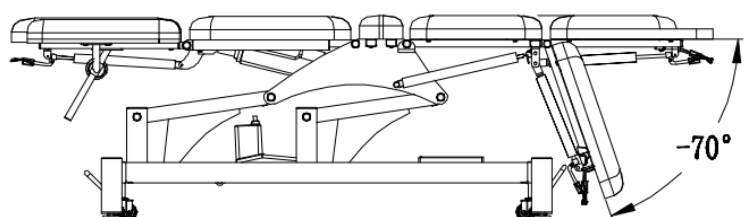

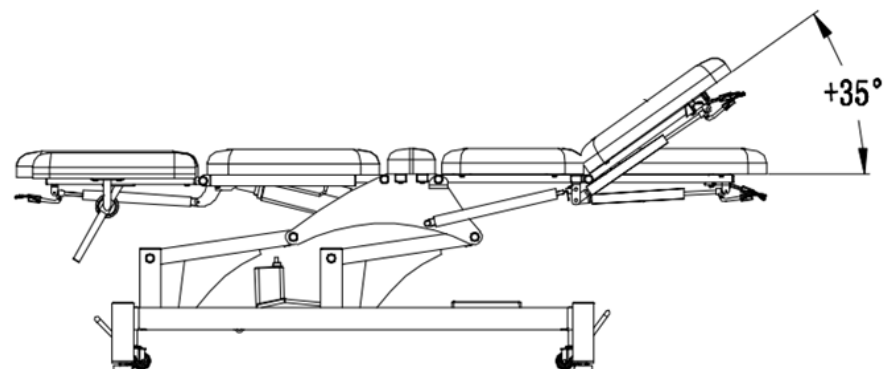

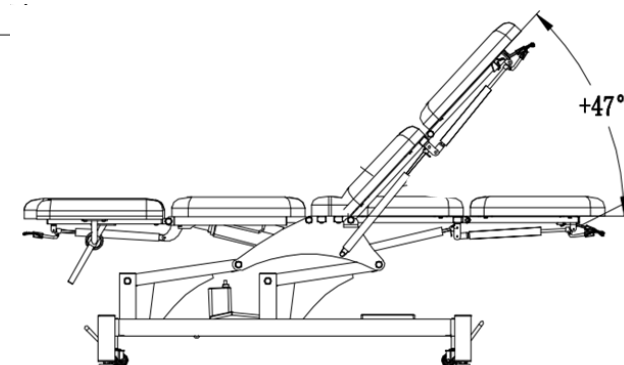

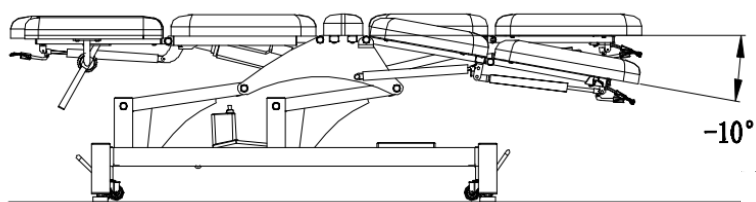

HEADREST ADJUSTMENT

FOOTREST ADJUSTMENT

CAUTIONS

- 1) To avoid coming into collision between the different parts, the backrest shouldn't go down at the same time that the headrest when the bed is in the lowest position.
- 2) If the bed is in the lowest position and the backrest is placed horizontally (as in the picture below), the headrest should only go down until -22° .
- 3) If you are moving the bed into the lowest position, please be careful if the footrest is by -10° to avoid coming into collision with the floor.
